19 DOCK KITCHEN
Stylish canalside modern European Dining

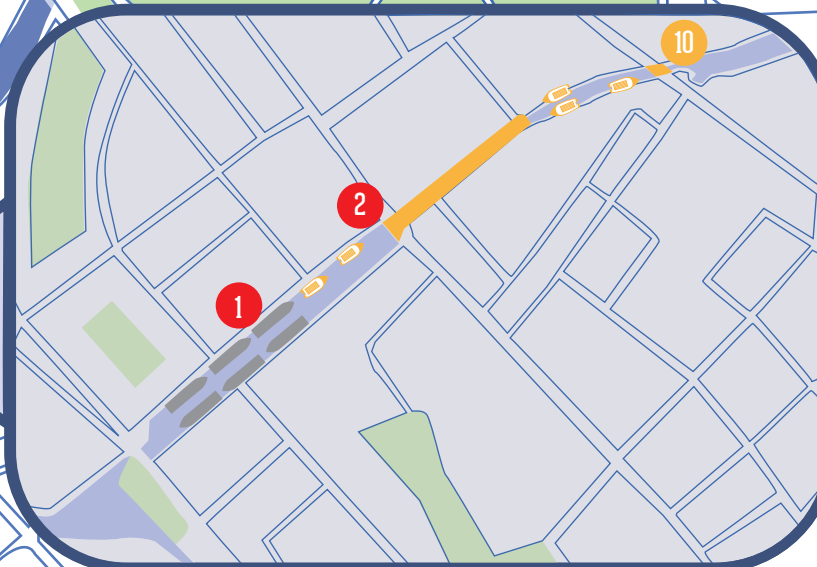

20 THE FRUIT TOWER
Headquarters of Innocent Drinks

21 KENSAL GREEN CEMETERY
Opened in 1833, it comprises 72 acres of grounds

EDGWARE ROAD

GOBOAT

PADDINGTON

1 BLOMFIELD ROAD

Blomfield Road is a tight stretch of canal. When there is an oncoming boat, steer to the starboard/right side of the canal, and let the oncoming boat pass on your port/left side. Keep a steady amount of power and stay on a consistent course. Keep a safe distance from all other boats.

2 MAIDA HILL TUNNEL

Before entering ensure that there isn't anyone else in the tunnel coming towards you. If busy, wait before the tunnel and allow enough room for the oncoming boat to pass. If clear, enter the tunnel and keep a straight path to the end of the tunnel. Keep the throttle on except in emergencies. You may enter the tunnel if someone is already in the tunnel, but only if they are going the same direction as yourself.

3 CUMBERLAND BASIN TURN

This is a blind corner, therefore it can be difficult for trip boats and barges to see oncoming boats around the corner. When coming from Little Venice, approach this corner wide on the right side of the canal. You must make a long turn around, providing as much visibility to oncoming boats as possible. On your return, stay close to the right side of the corner.
